gordonjgz@gmail.com · about.gordonji.phd · github.com/gordonjgz

Ph.D. Economist and Associate at Econic Partners specializing in Industrial Organization and Causal Inference. Combines rigorous structural modeling with advanced data science techniques (Python, R) to solve complex liability and damages problems. Experienced in processing large-scale geospatial and transaction datasets for litigation consulting.

Education

Ph.D. in Economics – University of Texas at Austin 2020 — 2026

Fields: Empirical Industrial Organization, Econometrics

B.S. in Statistics and Economics – University of Chicago 2014 — 2018

General Honors

Technical Skills

Programming — Python (Pandas, NumPy, Scipy, Jax), R (ggplot2, dplyr), SQL, Stata, MATLAB

Econometrics — Causal Inference, Discrete Choice Models (Logit, BLP), Welfare Analysis, A/B Testing, Optimization

Tools & Cloud — Git, ArcGIS (Arcpy), Google Earth Engine, LaTeX

Languages — English (Native/Bilingual), Mandarin (Native/Bilingual)

Professional Experience

Associate — Econic Partners, Oakland, CA July 2026 — Present

Summer Associate — The Brattle Group, Washington, DC June 2025 — Aug 2025

Senior Research Specialist — Princeton University, Princeton, NJ June 2018 — June 2020

Caseworks

Mergers & Acquisitions

Paramount Skydance Acquisition of Warner Bros. Discovery — Econic Partners 2026

- Supported economic analysis of the transaction's potential competitive effects in basic-cable programming.
- Developed and documented bargaining analyses of cable-channel carriage negotiations, including blackout scenarios, MVPD and vMVPD diversion, direct-to-consumer substitution, and separate versus joint negotiation.

Antitrust & Litigation

Open-Source Platform Litigation — Econic Partners 2026

- Providing economic consulting and litigation support concerning platform economics and trademark licensing

Healthcare Monopsony Litigation — The Brattle Group 2025

- Contributed to the liability phase of the case, quantifying damages from a health insurer’s alleged monopsony power.
- Processed and analyze large-scale hospital transaction and geographic datasets.

Selected Research

Job Market Paper — “Rain or Shine? Optimal Utility Pricing under Different Weather Patterns” 2025

- Developed a structural model to estimate welfare effects of utility pricing strategies under varying environmental conditions.

Working Paper — “Spatial Heterogeneous Consumers: The Welfare Effect of UberPool” 2022

- *Awarded Outstanding 2nd Year Paper.* Analyzed consumer surplus and spatial heterogeneity in ride-sharing markets.

Teaching & Mentorship

Undergraduate Research Mentor — UT Austin 2022 — 2025

- Priyansh Dhandha — Placement: Research Analyst at Coherent Economics

Assistant Instructor — UT Austin 2023 — 2024

- Instructor of record for *Economic Statistics (ECO 329)*. Managed curriculum, lectures, and assessment for undergraduate students.

Teaching Assistant — UT Austin 2021 — 2026

- Courses: Environmental Policy Analysis, Introduction to Econometrics, Macroeconomic Theory, Experimental Economics.

Conferences

2nd Annual Tex-Mex IO Conference — UT Austin — Austin, TX Apr 2026

- Presenter: ”Rain or Shine? Optimal Utility Pricing under Different Weather Conditions”

9th Tech Economic Conference — NABE — Seattle, WA Nov 2025

- Attendee / Job Market Participant: Engaged with the business and tech economics community during the 2025–2026 industry job market cycle.

1st CSQIEP Mentoring Conference — AEA — San Francisco, CA Jun 2023

- Mentee: Attended the inaugural mentoring conference for LGBTQ+ identified economists.
